ing, and back on the Atlantic coast  
again at 1:16 a. m. today.This was the epochal feat com-  
pleted by Captain Frank M. Hawks  
early this morning when his Lockheed  
air plane emerged from the  
thick fog and darkness and over the  
field here, narrowly averting a serious  
crash in landing. He made the  
return flight in 17 hours, 38 minutes  
and 16 3/4 seconds, clipping 43 min-  
utes off his own west-to-east non-  
stop record.The transcontinental flier's actual  
flying time for the round trip was  
only 36 hours, 48 minutes and 48 3/4

REV. H. L. MILLER

REV. H. L. Miller, pastor of the  
West Creighton Ave. Christian  
church, of Fort Wayne, Ind., will  
speak at the services of the First  
Christian church, here, at 7:30 p.

Announced; Tickets On SaleTamaki Miura, Famous Opera Star, One of Numbers  
On Varied Bill Presented by Redpath; Event  
Scheduled for July 25 to 31That chautauqua is "just around  
the corner," was indicated with the  
arrival today of C. O. Callahan,  
Redpath advance representative. He  
has delivered chautauqua season  
tickets to the local committee, and  
the chautauqua dates of July 25 to  
31, inclusive, stand out from local  
awnings, windows and automobiles.  
Evidently the Redpath manage-  
ment has gone a step further this  
year than has been their custom  
in addition to the two headline  
plays usually offered, they are pre-  
sented Tamaki Miura, famous for  
her interpretation of the leading  
role in "Madame Butterfly." Her  
appearance with the Chicago Civic  
Opera company and the San Carlo  
Opera company have added to the  
fame which already was hers when  
she came to America from her na-  
tive Japan. Madame Miura is to be  
heard on chautauqua's third night,  
with her company of geisha girls.Chautauqua opens with the Ju-  
go-Slav Tamburica Orchestra, and  
Helen Ira Jones with his popular  
scientific demonstrations.The second day program includes  
Chief Strongheart of the Dakota  
Indian tribe, and the mystery com-  
edy, "Three Wise Fools."  
In addition to Madame Miura and  
her company, the third day's pro-  
gram includes Waldo Emerson  
Stephens, the brilliant young orator  
who toured the Redpath circuit just  
five years ago. This season he is to  
be heard in a discussion of "Poets  
and Fiction in Our Foreign Affairs."

CLINIC PRESENT;  
WILL REBUILDSubstance Remains In  
Walls of Building;  
Fumes CreatedCleveland, June 29.—Dr. William  
Lower, director and co-founder of  
the ill-fated Cleveland clinic, an-  
nounced today that the building  
will be completely rebuilt at a cost  
of approximately \$100,000.Poisonous gases, generated by de-  
composing x-ray films, caused the  
death of 126 persons in the clinic  
disaster which occurred on May 18.It will be necessary to tear down  
all of the present structure except  
the outside walls, according to Dr.  
Lower. The reason for this is that  
there is a liberal deposit of a thick,  
tarry substance covering the inside  
walls, in air vents and between  
partitions.Samples of the tarry substance  
were tested in the chemical labo-  
ratories of Western Reserve uni-  
versity. It was found that when heat-  
ed the substance gave off deadly  
gas.Rather than take a chance on  
some of this dangerous compound  
being left in a position to result  
harmfully at some later date if the  
inside of the building were merely  
renovated, Dr. Lower said it had  
been decided to tear down all but  
the outside walls of the building.The clinic directors have not de-  
cided as yet where the x-ray films  
will be stored in the building after  
it is re-occupied. They said this  
would have to await the report of  
the committee appointed by the city  
manager to make an investigation  
of the disaster and its causes. The  
report is due to about three weeks.Use of nitro-cellulose x-ray films,  
the type which caused the clinic dis-  
aster, has been discontinued, Dr.  
Lower said. Instead what is known  
as a safety film is now used but  
Dr. Lower said this new film was  
not as satisfactory as the old type.  
He hopes a more efficient type,  
without the potential danger of the  
nitro-cellulose film, can be de-  
veloped soon.Contracts for rebuilding the clinic  
already have been awarded, and  
work will get under way soon, Dr.  
Lower stated. It would require  
three months to put the building in  
shape for occupancy.Jinx Is Beaten As

triumphed over old man Jinx,  
which had persisted in thwart-  
ing the marriage of Miss Ella  
Brush, 21, Mt. Pleasant, Pa.,  
to Chester Smiley, 27, of To-  
ledo.The wedding date had to be  
postponed four times, twice by  
illness and twice by death.With all things in readiness  
and only a few hours before the  
wedding ceremony a week ago  
today, the bride-to-be became  
stricken with appendicitis."Seem like we aren't ever to  
get married," she told Smiley.  
But he decided to overcome the  
jinx that had pursued them,  
with the result they are now  
happily wed.The wedding ceremony, not as  
elaborate as planned, was per-  
formed from a cot in St. Vin-

gowned in a pretty blue silk  
night dress.BIG FOURTH OF JULY CELE-

Rescued From SeaBritish Vessel Reports Saving Missing Airmen After  
Crew of Big Flying Boat Had Been Adrift for  
Week; All In Good HealthLondon, June 29.—Alive and safe  
after more than a week of drifting  
on the sea, Major Ramon Franco  
and his three companions who had  
been given up for lost while at-  
tempting a trans-Atlantic flight,  
have been found near the Azores  
by the British aircraft carrier  
"Eagle," according to an official  
message from the vessel to the Brit-  
ish admiralty today.After several days of searching  
the waters between the Spanish and  
Portuguese mainlands, and the  
Azores, watchers aboard the Eagle  
sighted the huge Dornier-Wahl sea-  
plane drifting on the waves. The  
vessel steamed close, and ascer-  
tained that in spite of their hard-  
ships and incredible escape from  
disaster, the airmen were safe and  
apparently in good physical con-  
dition.Radio Tells of Rescue  
Word of the rescue was immedi-  
ately relayed by the Eagle to Gib-  
ralter and then to the admiralty  
here.Major Franco and his companions,  
Captains Gallarza and Ruiz de Aida  
and Pedro Madruga, a mechanic,  
took off from Los Alcazar aerodrome,  
Cartagena, Spain, at 5 p. m. a  
week ago Friday. They expected  
to reach the Azores the following  
morning, but were not seen or  
heard from after being reported  
sighted over Tarifa in the Straits  
of Gibraltar a few hours after the  
start.When a day overdue at the Azores,  
where the airmen planned a refuel-  
ing stop before proceeding to New  
York, search was begun for the air-  
men. Portuguese Spanish and Eng-  
lish warships in the vicinity par-  
ticipated in the search, and for a  
week an unceasing patrol was made  
of the steamer lane between Spain  
and the Azores for some trace of the  
airmen.Hope Nearly Gone  
Their safe discovery comes just  
when all hope had been abandoned  
for their discovery.Under ordinary conditions, hope  
would have been abandoned long  
ago, but the plane in which the  
flight was being made was an ex-  
ceptionally heavy and substantial

Romance; Sweetheart  
Now AloftRoosevelt Field, N. Y., June 29.—  
Miss Viola Gentry, famous girl flyer  
who was injured in an airplane crash,  
still was in a critical condition to-  
day and fears were expressed for  
her recovery.As she lay, semi-conscious, in  
Nassau county hospital, she moaned  
again and again the word "Bill,"  
revealing a romance of the air that  
even some of her closest friends had  
not known of. She referred to Wil-  
liam Ubrich, one of the "three  
musketeers" now soaring over this  
section in an effort to set a new  
endurance flight record. The other  
two "musketeers" are Martin Jen-  
sen and his wife, Marguerite.Miss Gentry was injured and her  
co-pilot, Jack Ashcraft, was killed  
when her plane "The Answer,"  
crashed near Old Westbury, N. Y., yes-  
terday. When she was being pulled  
out of the wreckage she called for  
"Bill" and she has been moaning  
his name at intervals since.Miss Gentry and Ashcraft had  
been aloft over Roosevelt field for  
more than nine hours in an at-  
tempt to set a re-fueling record for  
light planes when the crash oc-  
curred.She was injured internally. A  
blood transfusion was reported to  
have been given yesterday and the crisis  
was expected to be reached today.MANY ATTEND

for state troops; I've got the situa-  
tion well in hand."Thus did Harry Newland, doughty  
sheriff of Vermilion county, today  
squish moves to bring militia to  
quell rioting in the Beno mine re-  
gion, 14 miles southwest of here.Single-handed, the middle-aged  
officials late yesterday dispersed a  
mob of 2,000 coal miners surround-  
ing 40 battered and bleeding non-  
union workers. His timely arrival  
probably prevented scenes such as  
were enacted in the Herrin, Ill.,  
massacre of 1922.Processing a grand jury investi-  
gation, the sheriff today said af-  
fidavits by injured men will be filed  
in the circuit court against a num-  
ber of the rioters.Miners who took part in the de-  
monstration arrived in more than 200  
automobiles, some from points as  
far as southern Illinois and Indian-  
apolis.When Sheriff Newland reached  
the scene he found 40 bruised and  
bleeding non-union men surround-  
ed by a milling, swearing mob.  
Pushing his way into the midst of  
the throng, the grim-faced officer  
by sheer physical courage cowed the  
mob and sent its members slinking  
away.POISON BULLET

Italian Leader's LifeAkron, O., June 29.—Belief that  
shotgun slugs fired into the body of  
Gasper Ripellino, 52, leader in the  
local Italian quarter who died from  
the wounds, were covered with ar-  
senic to insure death, was expressed  
today by detectives investigating the  
slaying.Ripellino's refusal to aid author-  
ities in trying to apprehend the  
slayer made the work of detectives  
difficult. They were working on sev-  
eral clues, but no suspects have  
been arrested.

## Bus Drivers Fined

Toledo, O., June 29.—Two drivers  
of a community traction company  
here, who staged a race through  
downtown Toledo with their buses  
May 18, today had been fined \$25  
and costs. The men, Russell Hutch-  
inson and Louis Poulman, were  
charged with reckless driving.Columbus, O., June 29.—With the  
granting of 1,922 degrees at the re-  
cent graduation, Ohio State uni-  
versity has conferred 23,931 sheepskins  
since it gave the first one in 1878,  
according to figures compiled here  
today. More than half of the total  
number of degrees conferred have  
been in the past eight years, the  
figures showed.

## 399 TRILLION MILES AWAY

Dr. Milton Humason and Dr. Francis Pease, of Mount Wilson observatory, have announced their joint discovery of three celestial bodies, fainter and more distant than any light of which has heretofore been analyzed, which they hold are moving at the greatest velocities known in the field of nebulae. One of the bodies is moving at a speed of 4,900 miles a second—a speed simply incomprehensible to man—its movement, like that of the other two, being away from the earth. The second speeder of the trio is traveling through space at the rate of 4,600 miles a second, and the slowest—if any term derived from slow can properly be applied to such a speed—is moving at the rate of 3,100 miles in the same measure of time.

The two more rapid bodies are believed to be in a cluster near the pole of the Milky way while the third is nearer the earth. Their relative speeds would indicate that they have long been recognized as a fact that when bodies are moving away from the earth, just as these are, the farther away they move, the faster they appear to go. Being the most distant bodies known, the high speeds attained by the three naturally would be, under the law noted, correspondingly great.

To complete the circle, it may be said that the speeds at which the three objects are moving show them to be the most distant as yet observed by man.

The announcement of the two scientists was made to the American Association for the Advancement of Science following profound study of the three bodies and the analyzing of their spectra through the great 100-inch reflecting telescope of the observatory. From the observations made by them, the scientists figure that the three objects are approximately 50,000,000 light years away. As a light year is the equivalent of about 6,000,000,000,000 miles, this means that the newly-discovered bodies are distant about three hundred quintillion miles. If the reader would have this in figures, let him put down a three and follow it with twenty ciphers.

Let us put it another way. Our sun is 92,830,000 miles away. Traveling at the rate of 186,000 miles a second, light reaches us from the sun in a fraction over eight minutes and nineteen seconds. Yet these newly-discovered celestial bodies are so far distant that it takes a ray of light 50,000,000 years to span the distance between us and them.

Despite centuries of education on the subject, there are those—possibly millions of people—who believe that all the celestial objects visible to the eye are embraced in our puny little solar system. There may be some excuse for such a belief, untenable as it has long been demonstrated to be, but what excuse can there be for the belief of untold millions that, of all the universe, our earth alone is peopled; that all the heavens were created for the glory of us of the earth alone? What excuse can there be for the belief that this earth of ours, less than a speck in the great celestial scheme, is the one rhode of beings such as we are, or such as we may become after eons of cultivation and advancement? What excuse could there be for such waste of created things 50,000,000 light years away?

## What Others Say

WAR IS HOTELS  
"War is hell," said Sherman, and the popular idea has it. "War is hotels," at least in its earlier stages, says Colonel James K. Parsons of the general staff.

Localize in Boston a condition which Colonel Parsons describes in an article contributed to "The Red Guide." A call to arms goes forth and the young manhood of the nation responds. Recruits pour into Boston, but they are not hurried on to the rude structures at Camp Devens. Instead, they find themselves billeted in the Statler, the Copley-Plaza, the Ritz-Carlton and the other hotels. Instead of double-deck cots they have luxurious beds in which to sleep. There are no leaky roofs to bother them. If it is winter, summer temperature prevails indoors, and the howling of

the blast is beyond walls of brick which contain no cracks and crevices such as those of a wooden shack. Nearby streets are roped off to provide training areas.

The recruit at this stage of his career might question the accuracy of the description of war attributed to General Sherman, but the civilian, making detours around the training trenches and pill boxes in the streets while he sought a lodging for the night, would doubtless be more than ever convinced that Sherman was right. Some provision would necessarily be made for the civilian on his travels, but not for him the accustomed luxury of the hotels. He might, perhaps, find shelter announced in a sign in a window reading "Civilians Accommodated" as such placards now make reference to "transients." Or, in summer, regulations might be relaxed so that he could sleep in a park, having first obtained his sleeping card from a police station.

For the civilian it is a horrendous prospect of discomfort. It may give him a greater dread of the next war than the lurid tales of whole populations wiped out by gas bombs dropping from the clouds. But behind the program described by Colonel Parsons is the common-sense idea that in war every means should be used to promote the efficiency of the nation in the art of destruction and the construction of fortifications takes time and much material and provides at best inadequate shelter. For such portion of the army as they could accommodate why not then, use the hotels?

But the idea of training large numbers of troops in city streets causes the civilian to wonder whether that is the better way, unless, indeed, military authority regards dodging motor cars as a desirable form of preparation for the next war. And, in such case, it may be said that most of us are good soldiers already.—Boston Transcript.

## The Stars Say

For Sunday, June 30

Sunday's horoscope shows a generally ominous state of affairs unless the vision and energies be turned to the contemplation of things spiritual and sacred to the day. There is sign of upheaval, unrest, excitement, which should be wisely and calmly managed.

Those whose birthday it is are assured of a year of lively and probably upset conditions, with change, excitement, uncertainty. The employment is in jeopardy and there are other avenues of peril, so be cautious and discreet. A child born on this day may be versatile and talented and may be called upon to stand in the forefront of many conspicuous situations in life. It may be radical and restless.

Religion's lustre is by native influence divinely pure, and simple from all arts.—Rover.

For Monday, July 1

The planetary influences for this day enlarge the vision, the ambitions and the prospects generally. These stimuli will favor courage, initiative, adventure, resourcefulness, with the constructive and practical qualities and faculties which will make these cherished hopes and aims materialize. All affairs should thrive and prosper under a magnificent sidereal impetus.

Those whose birthday it is are confronted by a year of excellent opportunity for pushing toward the goal of the ambitions. They will find the requisite qualities and faculties alert, energized and ready to meet the beneficent situations presented, with constructive ideas and practical abilities. Personal relations will also be gratifying. A child born on this day may be abundantly endowed with the qualifications and talents necessary to capture success and prosperity in all its cherished ambitions. It may be practical and diligent as well as visionary and idealistic.

For every man bath business and desire.—Shakespeare.

# AVOID INFECTION BY KEEPING RAZOR CLEAN

BY ROYAL S. COPELAND, M. D.  
(United States Senator from New York)

Age has its penalties. Everybody admits that; but who would think of it in connection with shaving? Of course every boy reaches an age when he "borrows" his father's razor and takes a shly shave. He may cut his face in a place or two, but the joy of scraping off the fuzzy beard is an experience never to be forgotten. It is really the initiation into manhood.

But that isn't what I have in mind. I am thinking of the increasing irritation of the man past fifty, growing over the "inferior quality of the modern razor." A few days ago I went to the factory of a progressive razor manufacturer in New York City. Having used this shaving outfit for about twenty-five years, I became impressed with the idea that my old razor was out of order, or else that the blades were not made so well as formerly.

The president of the concern invited me to his office for a talk about shaving. I told him of my troubles. In as kindly and polite a way as possible he suggested that as men grow older their beards get heavier and harder.

I saw the point at once. The good man is right. These hairs that are cut off every day are getting tougher and every passing year. At the same time the skin, especially of an indoor man, is growing more flabby and tender.

I am speaking of these matters because men write me about them. They ask about beards, as they do about baldness and its causes. By the way, what a pity it is men don't get bald on the chin instead of on the crown! Wouldn't it cause a grand and glorious feeling to wake

up some morning to find the face as smooth as a bald pate?

It is fortunate for us men-folks that razor makers are improving their product. The frames are firmer and the blades keener. They are finding ways to make the edges still sharper and to keep them sharp.

Shaving would be easier to do if the flesh were kept firm by proper feeding, out-of-door exercise, sunlight and an abundance of sleep. The skin of the body is improved or kept in normal condition by appropriate application of the rules of hygiene. Just as the general welfare of the skin surface is promoted, so is the skin of the face.

Your whole day may be spoiled if you swear over your shaving. It is a wise thing to begin right. With a smooth shave and a smiling face you are ready for whatever offers. In a sense, shaving is a sort of surgical operation. It should be done with a good instrument, the best of soap and attention to absolute cleanliness. Infection, irritation and skin diseases are avoided by sensible practices in shaving.

## London Haberdashers Declare War On Tiny Collar Buttons

### English Group forms New "Dress Reform Party" At Recent Meeting

June 29.—War has been declared on the collar button. The dress of man will be simplified, open at the neck and sleeves rolled up; shorts, and, on the hottest days, a flannel jacket and woolen stockings. In an effort to revolutionize man's dress, an organization has been formed here by an actor, an artist, a school teacher, three doctors and a representative of the church. The organization is known as the men's dress reform party. The object is to discuss the means whereby men may reform their clothes with as much profit to their health and appearance as men have already achieved. Dr. Alfred C. Jordan, secretary of the party, today thus explained the organization's aim: "We want to make men's clothing unhealthy and less cumbersome wear far too much. Perhaps the first thing to abolish is the collar button. Men have far too many buttons

to trouble them, anyway, and on some of the latest shirts there are as many as twenty buttonholes. Enormous time is wasted in dressing." The very Rev. W. R. Inge, the "glorious dean" of St. Paul's Cathedral, who is one of the founders of the organization, is of the opinion that the poplin shirt and shirt is an ideal kit for business men. Dr. Jordan has for the last two years visited his patients attired in shorts and a shirt open at the neck.

## HUSBAND JAILED; DIVORCE ASKED

Lisbon, June 29.—Lawrence Bailey, recently sentenced to the Ohio penitentiary by Judge W. F. Lones for from one to five years on an indictment charging him with manufacturing liquor, has been sued for divorce by his wife Clara M. Bailey of East Liverpool. The couple were married at Steubenville Jan. 31, 1922 and have one child.

In addition to a decree, Mrs. Bailey asks the court to divest her husband of his dower in 5.765 acres of land in Liverpool township as alimony.

The first divorce action filed by Thelma McFeely against her husband has been dismissed by the court, and in a second petition recently filed, the court has ordered the defendant to pay his wife \$50 as counsel fees within 30 days and in addition \$6 per week for the support of a minor child.

When the first divorce petition was filed both plaintiff and defendant were minors, and when the second petition filed June 14 last they were of age.

Attorney Awarded Fee Probate Judge Lodge Riddle following a hearing held in common pleas No. 2 handed down an opinion that Attorney K. L. Coburn should receive \$1,100 as counsel fees and \$34 as personal expenses paid as counsel while he acted as attorney for Hannah M. Leininger, administratrix of the estate of Walter O. Radkey deceased. The court set the appeal bond at \$500, as Mr. Coburn announced he proposed to file an appeal in common pleas.

When the court was asked by Coburn to determine the amount of the fees he was entitled to receive, he filed a schedule with his application indicating his fees at \$3,179.16. After Coburn filed the witness stand six other attorneys were examined as witnesses.

Foreclosure Filed Foreclosure proceedings have been filed in common pleas court by the Union Savings & Loan Co. against Ulysses Cunningham and other to recover a claim of \$2,993.29. The defendants reside at 1010 Florence street, East Liverpool, and when they obtained a loan gave a mortgage on lot 973 Manley & Cartwright's addition, East Liverpool.

Sale Is Ordered The court has ordered a sale in the application of the trustees of the colored M. E. Church of Salem to sell certain real estate.

Settled Out of Court There has been a settlement out of court in the \$20,000 damage action filed last March by Ruth Obenour against Fred H. Cartwright. The settlement was at the costs of the defendant.

Grants Leave to File In the case of the Youngstown Pressed Steel Co., against Edward C. Whitacre, doing business as the Whitacre Boiler Co., the court has granted leave to the defendant to file an amended answer and cross petition at once.

Real Estate Transfers Louisa C. Ingols to Harris Fleming part lot 119 Second street, East Liverpool, \$5.

George Wright as Sheriff to William S. Foulks land section 36 Liverpool township, \$1,140.

A. S. Shy to M. M. Barger 100.24 acre section 32 St. Clair township, \$1.

Arch Randolph and wife to Minnie Baughman part acre section 10 Fairfield township, \$1.

Ida B. Gaskill to Guy M. Wells lot 98 Land Co's, addition Lisbon, \$1.

First National Bank to Clyde R. Larkins 1.34 acre Highland Place Colony, East Liverpool, \$10.

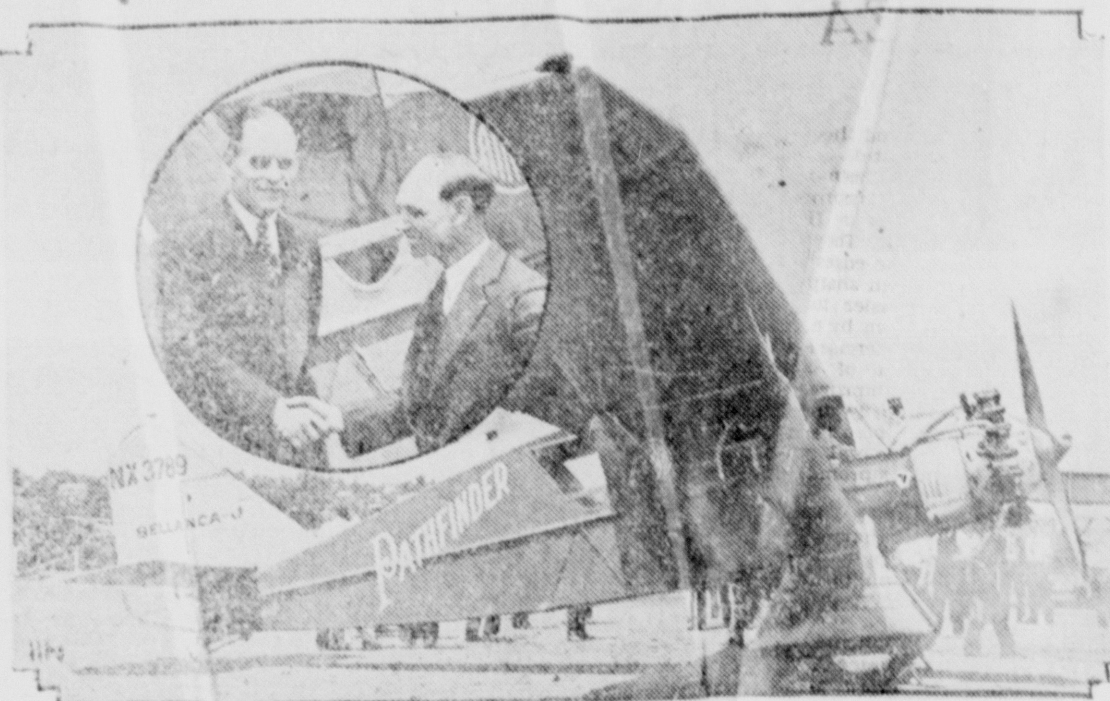

Taza, Morocco—General Freydenberg, a red-headed fighter, terror of the Moors, left a monastery to enlist in the French army. An the battlefield he has won all his stripes from corporal up. He is relinquishing his command and returning to France.

County Commissioners Plan 1930 Improvement Program

Lisbon, June 29.—County commissioners have already given some consideration to the new road construction program for 1930, and the surfacing of three highways has been determined. The entire 1930 program has not been worked out, and the number of roads to be graded and probably graded and surfaced next year will likely be announced within the next few months.

It has been announced that the road between Summitville and Kensington will be surfaced in 1930. This road is being graded this year. A stretch of seven miles is to be given a concrete top next summer.

## Groom "Pathfinder" for New Attempt

Capt. Lewis A. Vancey, inset left, and Roger Williams, who flew their new plane, "Pathfinder," shown above, to Old Orchard, Me., are preparing it for their long flight to Rome, fervently hoping that their new ship will live up to its name.

This will be their second attempt, the first having ended in failure when their former plane, "Green Flash," turned turtle when taxiing over the sandy beach at Old Orchard.

## Utilities Commission Acts To Increase Safety On Highways

Columbus, O., June 29.—Increased safety for the traveling public is sought in a code of rules and regulations, announced by the state utilities commission, affecting the operation of motor buses throughout Ohio. The code is effective July 1.

"Any violation of any of these rules and regulations will result in prompt action on the part of the commission with a view to the revocation of the certificate of license of the operator and the forfeiture of the license of the driver, and appropriate court proceedings," reads a statement issued by the commission. The code applies to more than 200 motor bus routes now operating in the Buckeye state.

Intoxicants Taboo Bus companies are prohibited from permitting any intoxicating liquors or any explosive or inflammable material to be carried in a bus.

The commission announced that one of its engineers will be assigned to the work of checking up on the time schedules of the various bus companies to determine whether the average and maximum speed is excessive. Schedules will be modified where excessive speed is found.

## 57 BOY SCOUTS VISIT ENGLAND

American Delegation to World Scout Conclave Leaves Today

New York, June 29.—Fifty-seven picked Boy Scouts of America today were enroute to the world jamboree of Boy Scouts which is to be held at Birkenhead, Eng., July 31 to Aug. 13.

Eight California scouts and a leader sailed from Hoboken, N. J., on the Holland American liner Statendam which left just after midnight today. This group contained scouts representing stockton, Alameda, Oakland, Fresno and Coalinga. The Pennsylvania scouts also left with them.

A patrol of ten southern boys and a leader were to sail on the Red Star liner Belgenland at 11:30 o'clock this morning. These hail from Savannah, Athens and Augusta, Ga., and Paeolet, S. C.

A troop of 32 boys and five leaders are aboard the white star liner Regina which sails from Montreal today.

The scouts will tour various European countries before going to England for the jamboree.

Pays Liquor Fine

Lisbon, June 29.—After spending a day in the county jail, Chick Lucas of Minerva paid \$100 and costs into probate court, the fine and costs placed against him when given a hearing before Judge Lodge Riddle on a charge of possessing liquor. Lucas was arrested at Munday dance place near Millport Thursday evening.

Cleveland—Plans to consolidate 17 independent fleets on the Great Lakes into one huge fleet have been announced by Otis and company. Notice of the proposal has been sent to the 17 owners and the Otis company has said that \$400,000 would be offered for 115 ships.

Concrete Poured

George B. Patterson who has the contract for surfacing the new Eiken road has poured a mile of concrete already, and three and one-quarter miles remain to be surfaced. Rapid progress is being made on this project, but the late rain has delayed the hauling of material over the new sub-grade.

Less than one mile of concrete remains to be poured on the St. Clair township section of the East Liverpool-East Palestine road, and it is declared that the project would have been finished within a few days had the Canton Coal & Supply Co. not pulled seven trucks off the job that had been hauling material from East Liverpool. Additional trucks are to be put on this project next week, it is said.

## Three Musketeers Remains In Air

Roosevelt Field, N. Y., June 29.—Searing about in the bright morning sunshine and giving no evidence of any intention of coming down, the "Three Musketeers," Martin Jensen, his wife, Marguerite, and William Ulbrich, were attempting today to establish a new world's record for sustained flight.

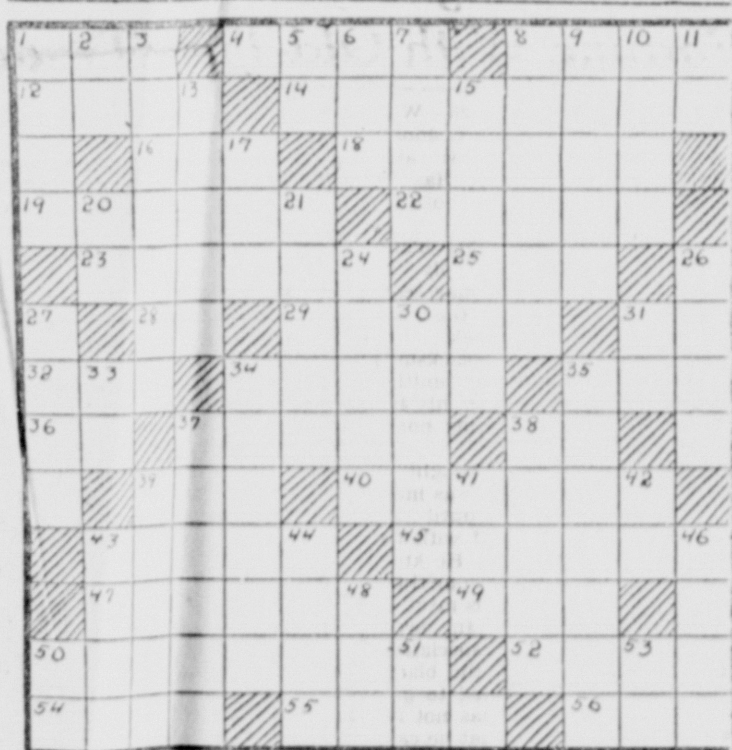

## Freed In Murder

Jackson, O., June 29.—John Wallace, 64, today stands acquitted of the murder of Marion Harper, 80-year-old recluse, who was found beaten to death in his shack in an isolated section of Jackson county last winter. Wallace pleaded self-defense and a jury after a short deliberation, returned a "not guilty" verdict.

### HOSTS AT DINNER

Mr. and Mrs. A. H. Fultz and Mr. and Mrs. W. L. Fultz entertained at a beautifully appointed dinner Friday evening at McKinley Inn, McKinley ave. The guests were their club associates.

A decorative motif of red, white and blue was favored. The centerpiece was a basket of red, white and blue flowers. Blue candles, in silver holders, were tied with red and white maline. The favors were little red, white and blue nut baskets with a silk flag in and the place cards were a design of Uncle Sam.

After the dinner the guests went to the home of W. L. Fultz, North Union ave., and enjoyed the hours at bridge. Four tables were in play. High score honors were won by Mrs. W. L. Fultz and A. H. Fultz.

The next meeting of the club will be in three weeks.

### WEST SIDE CLUB

Miss Bertha Kent was in charge of the program at a meeting of the West Side Community club Friday evening at the home of Mr. and Mrs. William Fiddell, Damascus rd.

These musical numbers were given: Piano trio, Mary Ruth and Janet Greenlee and Lois Dilworth; piano solo, Lois Dilworth; violin solo, Lucille Van Campen, accompanied by Mrs. J. W. Hundermark; group of piano solos, Mrs. Hundermark.

Betty Hinkel gave a reading. Contests and games helped make the evening enjoyable. Lunch was served.

Fans were made for a picnic, although no date was set.

### MARRIAGE LICENSES

A marriage license has been issued to Leonard Echols, pottery worker and Miss Edna Eken, both of East Liverpool. Miss Eken is a telephone operator and daughter of Mr. and Mrs. Henry Eken. They are to be married by the Rev. J. G. Reinart at East Liverpool.

George Doty of New Waterford, an upholsterer, and Miss Lorena Sigle, of New Waterford, formerly residing in Boardman township, Mahoning county and daughter of Mr. and Mrs. Guy Sigle have obtained a marriage license. They will be married by the Rev. Reed at New Waterford.

Meyer G. Schlein of Danville, O., former resident of St. Louis, Mo., who is engaged in the clothing business, and Miss Rebecca R. Manlowitz, bookkeeper, daughter of Mr. and Mrs. Samuel Manlowitz, of East Liverpool, have secured a marriage license. They are to be married by Rabbi April.

### SUCCESS CLUB

Members of the Success club spent Friday afternoon with Mrs. Mary Wright at her home, Ohio ave.

The hours were devoted to visiting and needlework. At 5 o'clock the hostess served a dinner. A centerpiece of red roses graced the table and the favors were roses. In two weeks the members will spend the day in Canton instead of having a social meeting. They will leave here at 9 a. m.

Mrs. Harold Babb was elected president of the club for the ensuing year.

### CIRCLE 3 MEETS

Ten members of Circle 3 of the Methodist church attended a meeting at the home of Mrs. Effie Gearhart, East Fourth st. Mrs. Frank Jacobs had the devotionals.

At the social period there was a contest and Mrs. Springer read an interesting letter from her brother, who is on world tour.

Lunch was served by Mrs. Gearhart and associate hostesses, Mrs. R. C. Fithian and Miss Triem.

### WEDDING DATE ANNOUNCED

Announcement was made Saturday that the wedding of Miss Flora Seekins, daughter of Mr. and Mrs. T. B. Seekins, East High st., and Rev. Charles Lease, of Oconto, Wis., son of Mr. and Mrs. John Lease, Damascus rd., will be an event of July 6, at the First Methodist church in Oconto, Wis. Rev. Lease is pastor of this church.

Rev. Charles Lease, who has been spending some weeks with his parents Mr. and Mrs. John Lease, Damascus rd., recuperating from an illness, left Saturday morning for Oconto, Wis., where he is pastor of the First Methodist church. He was accompanied by Miss Flora Seekins, his fiancée, and Miss Ruby Fay Beegren, of Oconto, who has been visiting at the Lease home.

T. S. Brush, Jr., of New York City, who has spent several weeks with his grandparents, Mr. and Mrs. Louis Brush, Lincoln ave., left for Maine, where he will be in a camp during July.

Mrs. Norman Elder, of Pittsburgh, spent a week with her sister, Mrs. C. H. Betts, Lincoln ave. Mr. and Mrs. Betts took her home and returned Friday evening.

Perry McArdor and J. R. Stratton returned Friday evening from Milwaukee, where they represented the Salem Kiwanis club at the international convention.

Miss Ada Bailey, of Adrian, Mich., will arrive here Saturday evening to spend a few days with Rev. and Mrs. C. F. Bailey, East Fifth st.

Miss Judith Brooks, Highland ave., is spending the weekend in Cleveland.

### CARD PARTY

Euchre and five hundred were favored games at a card party given by Salem chapter No. 68, Women of the Moosehead legion, Friday evening at the hall, Main st.

First prizes in the euchre games went to Mrs. Nettie O'Grier, of Youngstown, and Mrs. Pat Wren, Leetonia.

Mrs. Herbert Fischer, Salem, and Floyd Crawford, Leetonia, won the first prizes at five hundred. Lunch was served.

The chapter will give another party in two weeks.

A. P. Morris will leave next week for Los Angeles, Calif., where he will represent Salem lodge No. 305, B. P. O. Elks, at the grand lodge convention.

Miss Dorothy Miller, Woodland ave., entered the Central Clinic hospital Friday for medical treatment.

### Service Director Heaves Cuspidor At Ironton Solon

Ironton, O., June 23.—Ironton has had a private little battle all its own.

The cause of the scrap is accredited to politics. The casualty list is confined to one cuspidor.

Service Director Archie Roush and Councilman Henry Stanley are of different political faiths, and have been at odds since they took their offices two years ago.

Stanley directed some cutting remarks at Roush at council meeting last night, alleging neglect in the repair of a city street.

"You're a liar," shouted Roush, interrupting the "oration."

"And you're another," said Stanley.

Then he ducked. For Roush sent a cuspidor in Stanley's direction, as other councilmen slid from chairs and sought cover.

The cuspidor shattered itself against the wall. Next a swivel chair was hurled towards the retreating councilman.

There was no decision. Spectators stopped the fight in the first round.

craft, well equipped to ride the seas for an unlimited period except in heavy storms.

The brief laconic message received from the master of H. M. S. Eagle this morning telling of the fiercest rescue read as follows: "Nucencia found, latitude 36.23 north, longitude 26.14 west. Aircraft is being hoisted on Eagle. Little damage. Crew all well."

The message from H. M. S. Eagle did not indicate at what hour the Spanish plane was found, but the wireless was dispatched early this morning, and from the text of the message, it was indicated the plane and its fortunate crew were being hoisted aboard the vessel at the time the radio was being sent.

According to word received by the admiralty, the Eagle is proceeding to Gibraltar at a normal speed of 15 knots, and she is not expected to reach Gibraltar until Wednesday.

The Nucencia, it is learned is virtually undamaged. The fliers apparently made an easy descent upon the waves, and the great plane remained intact despite buffeting by the waves during the week it floated aimlessly upon the sea.

## THE HOME KITCHEN

By Jeannette Young Norton

Saw the bread for sandwiches, don't cut it. A sharp serrated bread knife will give clean edges and enable you to slice to any degree of thinness.

And be wasteful about the crusts in cutting!

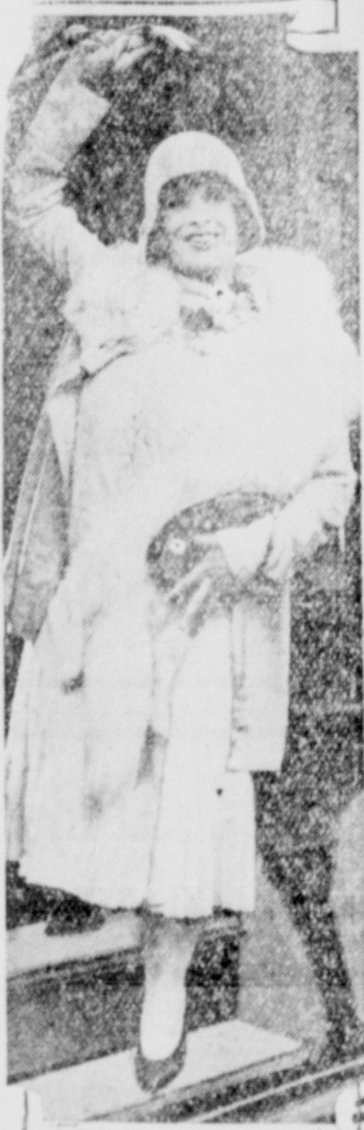

Yes, it does seem extravagant to trim off four sides of a loaf, but if these trimmings are dried and crushed they can be put in a jar and kept for stuffings, breading of meat, fish, croquettes, etc., and even be turned into tasty desserts and puddings. A layer of crumbs makes a good pie crust too with no trouble.

But leaving the crust on sandwiches takes away from their appealing appearance for one thing. And very often it's discarded anyway even though carefully spread with filling. Even those who usually like the crusts on bread because of the additional flavor, find it inconvenient in a sandwich and gently leave it! Incidentally one-day-old bread is better than the loaf just out of the oven, both for convenience in cutting and for flavor.

Too fresh bread may absorb liquid filling so much as to become soggy. If the sandwiches are to be used some hours after being prepared, the safest thing is to wrap them in waxed paper. There are waxed paper bags large enough to hold one large or two small sandwiches, and they are really the dearest way of carrying sandwiches on a picnic, and keeping them in a brand-new condition!

Chopped foods are tastier than slices for sandwich fillings. Meat loaf or fish prepared with fine seasonings are easy to slice and spread and make the sandwiches neat to the eye as well as easy to handle. Slices of chicken or meat, etc., requiring a more or less liquid dressing to season may make the bread too moist. For this reason sandwich fillings with two fillings and the sea-

Services Sunday, June 30, the Fifth Sunday after Trinity. Celebration of the Holy Communion 7:30.

Church school 9:30.

Morning prayer and sermon 11.

The service for God and humanity in a world in which peace reigns through the ordering of God, good Providence, is the subject of our thought today. This would seem to be the ideal condition for Christian work, peace within and without, the world free from disquiet, the Church united in joyful service for the King.

Yet what seems to our judgment to be an ideal condition for the work of God, may not be so to the All-Seeing eye. Peace would appear to be the most desirable in the interests of the Gospel of Christ. Yet Jesus Himself declared, "Think not that I am come to send peace on the earth; I came not to send peace, but a sword. There can be no peace between right and wrong, between truth and falsehood, between harmony and discord. Until the hearts of men are brought into right relations with God, the Gospel of Christ must ever cause division, and until right triumphs there must ever be war with wrong, the universal reign of peace lies before us, for it we must pray and labor. We do well to work for the unity and peace of the Church, for we may well believe that the union of the Christian forces would tend to greater efficiency and lead to much larger results. Then it might be possible to realize the bright dream of the evangelization of the world in a single generation of mankind."

So externally let us use the peace of the nation, the triumphs of civilization and science, which are God's gifts, as instruments for the better accomplishment of its work. Internally, in the joyful possession of the 'peace of God,' peace through the blood of the Cross in the conscience, peace in the heart through submission to His will."

NEWS IN BRIEF

Bandits Rob Driver

Cleveland, June 23.—Morris Gold, a commission merchant, was robbed of \$700 early today by two bandits who boarded his truck when he stopped for a red signal light. The men forced Gold to drive to a deserted alley and after robbing him, ordered him to drive on and then disappeared behind a group of warehouses.

Abandon "Bug" Line

Bridgeport, O., June 23.—Gasoline put an end to another bug today. Nightfall will see the "Hoodiebug" as the Baltimore and Ohio railroad accommodation train between this place and Holloway is known make its last run. Automobiles and buses are said to have caused the abandonment of the line.

Factory Destroyed

St. Clairsville, O., June 23.—A score of persons are idle here today, following a \$3,000 fire in the Peerless Box company, which resulted when lightning struck the building during a severe electrical storm.

Glendale, Cal.—Training canaries to "act" in talking pictures is one of Mrs. Jean P. Kosh's avocations. She has 100 song birds, one of which, Tinker Bell, has been taught to help her feed the fledglings. Tinker Bell mothers 14 young ones.

Mullica Hill, N. J.—The first wedding in the Friends' meeting house here, built 121 years ago, is that of Miss Florence Keiser and J. Malcolm Pratt, who were married recently. The meeting house was built by Quaker settlers in 1808.

The entire top of a sport type automobile designed in Europe is lifted on hinges to admit passengers. An English inventor has patented a radio set in wicker-covered boxes that form the arms of an easy chair.

### STYLE EDICTS

Paris June 23.—Spring tailors are of two varieties, the strictly tailored of smooth woollens with slight incurve at the waist, with wrap-over or deeply pleated skirt, narrow lapels notched high and often buttoned low.

Then there are the semi-tailored ones of soft finished woollen, satin or crepe marocain.

Both types are really suits with short jackets and very gay looking and both are accompanied by linen blouses in pure white or silk ones in subdued colors. Both types are worn with silver fox scarves and both types are worn in black and dark blue.

The one is for the woman who wants to take on a bit of masculine air. No frills, a severe jacket and the last word in smartness.

The other may have a collarless unlined cardigan jacket, worn with a delightful sheer blouse with rich handwork. On these more feminine suits, the coats are often very interesting. The collar disappears as often as not and lingerie collar and cuffs often turn up. The trimming on the coat may be repeated on the skirt, and if the hem of the coat has stitching, it appears on the hem of the skirt as well.

Some very smart tailors are shown in a nice tweed-jersey in which the jacket is pulled in slightly at the back by means of an engraved band and an original finish given to the collar by means of narrow ties.

Even some of the new tailors skirts dip slightly at the back. One designer is showing one in black chamois with belt and two pockets. Another dips the two sides of the skirt in plain black voile finely tucked which makes a much more feminine suit with its little straight jacket.

Official Indicted

Cincinnati, O., June 23.—Four indictments charging him with the embezzlement of \$19,159 of the funds of the Devere Electric company, today had been returned against Graefield Winkler, former president of the organization. The embezzlements allegedly took place during a four months' period in 1923.

Mangled Body Found

Elyria, O., June 23.—The badly mangled body of a man believed to be Daniel Brown, 55, of Elyria, was found beside the New York Central railroad tracks west of Brownstown Station, Friday. Cards in the man's clothing indicated he was a member of the moulder's union and that he had relatives in Cleveland.

## Dress Right for Endurance Flight

Even endurance flights require the proper attire, says Mrs. Martin Jensen, who took off with her husband and William J. Wright from Roosevelt Field, N. Y., in the monoplane, "Three Musketeers," in their attempt to set a new refueling endurance flight record. Mrs. Jensen, who carries a pilot's license, can relieve the two flyers, wore a sport dress, low-heeled shoes and no stockings. She left her cosmetics at home, but couldn't resist just one last dab before leaving the ground.

## Ohio Counties, Cities Receive Dividends From License Funds

Columbus, O., June 23.—A distribution of \$116,596 in state funds resulting from auto license fees to Ohio's 88 counties and many municipalities is now under way, according to announcement today by State Treasurer H. Ross Ake.

Hamilton county and its sundry subdivisions claimed the lion's share, being given \$10,587. Lucas county was awarded the next largest amount—\$10,298.

Cuyahoga, Summit and Franklin counties were next in line, receiving \$9,881, \$4,700 and \$2,375 respectively.

These counties received the largest amounts and several of the counties getting the mouse's share are: Mercer, \$68; Paulding, \$77; Wyandotte, \$139; and Anguize, \$171.

The various municipalities of the state will receive from five cents to \$3,497, the latter amount being Cincinnati's share. Shadyside, Belmont county, and Harrisonburg, Pickaway county, will each receive a check for five cents. Eighty-nine towns will receive less than one dollar.

## NEW SUGAR PLAN LOOMS BRIGHTER

### "Sliding Scale" Tariff May Be Adopted By U. S. Industry

Washington, June 23.—The prospects for adoption of a "sliding scale" of sugar tariffs, fair to consumer and producer, were considerably brighter today following the declaration of Rudolph Spreckles, California "sugar king," that the American sugar industry has been favorably considering such a plan for many months.

Spreckles himself proposed a "sliding scale" of sugar duties to the senate finance "sugar" subcommittee, containing the startling proposal for a fixed margin of profits to sugar refiners. As one of the biggest refiners in America, Spreckles declared this "profit-fixing" feature was necessary to save the American beet sugar industry from destruction due to competition from duty-free Hawaiian and Philippine importations.

The Californian proposed a scale which would guarantee a six-cent-a-pound market to American beet sugar growers. He said this price level was necessary to the home industry, in which thousands of American farmers are engaged. His scale would force a seven-cent-a-pound price to the consumer.

Cleveland Ship Makes  
Second Attempt At  
Air Record

Cleveland, June 29.—First refueling of the Stinson-Detroler monoplane, "City of Cleveland," in which Pilots Byron Newcomb and Roy Mitchell are trying to set a new endurance record, took place over Cleveland airport at 7 a. m. today. Newcomb and Mitchell took off at 6:38:51 p. m. last night. It was their second start in as many days, the first attempt ending six hours after the take-off when a violent rainstorm forced down the "City of Cleveland."

If the existing record, set recently in Fort Worth, Tex., by Reginald Robbins and James Kelly, is broken, Newcomb and Mitchell must remain aloft until 11:10:21 p. m. next Friday.

E. E. Basham, regular pilot on the Cleveland-Buffalo air mail line, has charge of the refueling ship. He took the "City of Cleveland" 100 gallons of gasoline on the first transfer. Later the pilots' breakfast was sent them in a similar manner.

A small crowd remained at the airport through the night.

## MOVIES In Playhouses Of Salem

Conrad Nagel, recently voted the best actor in talking pictures, will be headlined in two features scheduled in Salem moviedom next week. He appears opposite Lella Hyams in "The Idle Rich" at the State Monday, Tuesday and Wednesday, and then is at the Royal four days in "Kid Gloves."

The real feature of the week, however, appears to be "Two Lovers," featuring Ronald Colman and Vilma Banky in their last picture together. It is at the State the last three days, headlined along with an instrumental and singing act, known as the Renardi Trio.

Silent pictures, which have become somewhat passe to theatergoers of the city, will be shown at the Grand and Royal. "China Bound" with Karl Dane and George K. Arthur as the stars, appearing at the Grand Friday and Saturday. These fans remaining faithful to the old-time silent drama will find it and another silent picture to be shown at the Royal, highly entertaining.

### "Abie's Irish Rose"

"Abie's Irish Rose," the celebrated Jewish-Irish feud story, will be produced on the screen for the first time in this vicinity, when it appears at the Grand the opening three days of the week. Charles "Buddy" Rogers plays with Nancy Carroll in the starring roles.

"The Idle Rich" is a new trend in the drama of the poor working girl marrying a multi-millionaire. In this case it is true love from both

involved, but filial complexities pop in, when he attempts to render financial aid to the girl's parents and relatives. "Charity," as they term it, is refused, and the entire picture is based on his efforts to convince them the proper way to happiness.

## Spendthrift American Knows How To Spend Money Wisely

London, June 28.—Americans have acquired the habit of spending vast wealth in a wise and generous way. This is the view of Mrs. Sarajini Naidu, president of the Indian National Congress and India's leading feminist, who has arrived in London following a six months' tour of the United States.

Mrs. Naidu gave over 250 lectures, 100 radio talks, and attended scores of functions during her stay in America. While she gained many impressions, predominant among them was the realization that Americans are dealing wisely with their newfound wealth.

### Romance of Spending

"In your vast country I saw the romance and the adventure of spending," Mrs. Naidu said in an exclusive interview with I. N. S. here.

"Riches one can acquire, but to spend them afterwards in a wise and generous way is another matter. Therein lies the great romance of the new world, in my opinion. No nation has provided, throughout the history of the world a great or nobler example of such extraordinary, fantastic, almost Quixotic generosity as is being shown by the America of today.

"I did not find Americans mercenary. They all appeared to be seeking something beyond this materialism," Mrs. Naidu continued. "I met all classes of Americans—mayors, governors, senators, politicians, philosophers—and always I felt that instead of thinking about money-making they were seeking a vision, a glorious something which lies above and beyond this world of matter."

"This was my first impression as well as my last. They all seemed as though they were dominated by something which even they had not realized."

America is the only modern parallel to India, with its vast distances, its diversity of races and its medley of religions and traditions, in Mrs. Naidu's opinion.

"All these things are harmoniously coordinated in a common national feeling," Mrs. Naidu said. "That is the great secret of the United States—that vital thing which claims all creeds and all peoples and makes them feel within a short period of time that they are Americans."

### Found Many Problems

While Mrs. Naidu found many problems crying out for solution in the United States, she believes Prohibition has benefited the American working-classes.

"There is no doubt, in my opinion,"

## Strong Lake Outfit To Try For Third Straight Win Against Salemites

Grate Motors, Also From This City, Play Freedom Pa., Aggregation at Freedom, Tomorrow; Dun Eden Combine Boasts Strong Team

The Colonial Billiards, leading aggregation in Salem's baseball league, face their first real opposition outside of the circuit, when they clash with the strong Dun Eden lake combine, at Dun Eden park, Sunday afternoon.

Dun Eden, placed into the independent field by Dr. George W. Jorden, who also operates the park, has won both of its starts this season, and last Sunday defeated

### Rising Golf Queen

One short year ago Miss Virginia Vilas, above, of Glenview, Chicago, little dreamed that she would be the Western women's golf champion, but by dint of hard work and perseverance her game has improved to the extent that she is working her way up to the front rank of women golfers. Watch her dust!

ed the newly organized Grate Over-lands of this city, in a sensational battle. The lake's backers boast one of the strongest teams in this section.

The Billiards, although they lead the city league, haven't done so good in outside activities, having played two regular games, and lost both. Neither opponent was anything outside of the loop is concerned, and as a standing as far as extra-good base- result of these setbacks, the Colonials' showing in the loop is one of the big surprises of the season.

**Salem Players With Lake**  
Although Dun Eden is an outside team, Salem is well represented on its roster, several players participating in activities in the city league being a member of the team. Harry Vincent, Clem Scullion, Pat Bolen, all members of the Salem China nine, and other Salem stars, played in both the lake nine's first two contests, and will be in the line-up tomorrow.

The Billiards, despite the fact that they have been practicing for months, have been a disappointment, and it has only been due to the fact that the other three teams in the city league have not been able to get out for practice sessions, that they are able to claim three victories. Both the Pottery and Maccabee games, won by the Colonials after hard struggles, were donated by misplays and lack of practice.

**Boast Strong Combine**  
Dun Eden's team is composed of talent selected from neighboring communities. Damascus, Beloit. Resented on the team in addition to bring, and other places being repre- sented in the team. Dun has gathered together a formidable lineup, no word-beating crew by any means, but one which is expected to hang a third consecutive defeat on the Salem lads.

The Billiards were defeated last Sunday by the Franklin Furnitures of Columbiana, in one of the most disappointing exhibitions in Salem history, and the Sunday previous lost a one-sided affair to Lake Placid, through their failure to hit at opportune times. It's probable that the team will be bettered to a great extent, for tomorrow's fracas, though, as no team can play the ball it has without benefiting from the experience.

**Early, Bradt To Pitch**  
Eddie George "Sim" Early, the ace of the Salem hurling staff, or Orlando "Lefty" Bradt will do the flinzing for the Billiards, with Drakulich in reserve. Mike Sartick or Curt Shepard will catch.

The Grate Motors team is composed of mostly out-of-town players, and was formerly known as the Beloit Athletic club. Its first game under the new name, given it by the backer, E. L. Grate, of the Grate Motor company, Depot st., was played against Dun Eden last Sunday, the lake team winning, 11-10.

The Grates will play Freedom, Pa. at Freedom, engaging the championship aggregation of the Mon- tour railroad division in the duel.

## Yankees Land New College Pitcher

Plenty of big league teams were after the signature of Frank Nekola, above, Holy Cross pitching star, but the Yankees grabbed the plum. He reported to the Huggins fold all togged out in the Yankee uniform just to warm up a bit. He looks so that many think he will be one of the starting pitchers for the season is over.

## Weather Ruins Sport Programs

Baseball, Boxing Schedule Delayed When Cold and Rain Visits Section

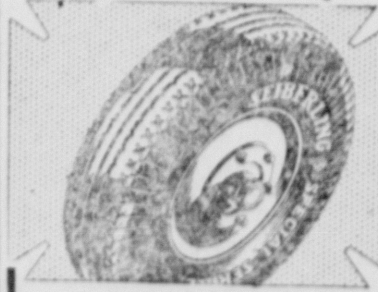

Adverse weather conditions again played havoc with sport programs Friday, forcing the postponement of the city baseball league clash, major league contests, and the scheduled fight show at Sebring, in which two Salem youths were to participate.

The embargo, sponsored by the Sebring A. C. will be held at the Palermo bowl Tuesday night, it was announced at Sebring last night, when cold weather and a one-hour rain kept the crowd down to less than 200 spectators. The scheduled card, with Jack O'Keefe and Jimmy Richey, of Salem, included in two preliminary bouts will be held.

The Salem China company and Masens were billed to furnish action in the city league at Centennial park last night, but the heavy afternoon rain flooded sections of the infield, making it impossible for the game to be held.

Continued rain has allowed few games to be played in either the city

## Leaders In Majors Unable To Break Through Old-Time Jinx

Cubs Again Trim Cards While Pirates Lose and Regain First Place In National; Cincinnati Hold Indian Sign On Pittsburgh Nine

**BY LES CONKLIN**  
New York, June 28.—One of the freak developments of the major league races this season has been the inability of several of the pennant contenders to defeat certain other teams which on paper, do not appear stronger.

The champion St. Louis Cardinals have captured only eight out of 28 games from the other three first division clubs, the Cubs, Pirates and Giants. New York has lost nine out of 15 to Brooklyn. The St. Louis Browns top the Yankees in the standing of the clubs but have dropped six out of seven to the champions. And the tail-end Cincinnati outfit has won more games from the powerful Pirates than from any other club in the National League.

**Cubs In First Place**  
These jinxes were strikingly illustrated yesterday when the Reds knocked the Pirates out of first place while the Cubs took the lead by vanquishing the Cardinals, 9 to 5, for their ninth triumph at the expense of the champions in 13 games this season. The Cards, who have been beaten by the Cubs six times in succession, dropped to fourth place below the Giants.

Fat Malone hung up his eleventh victory of the season for the Cubs and helped win his own game with a home run; Wilson and Hornsby also got homers, and Kiki Cuyler stole his 22nd base of the season.

**Oppose Death**  
Atlanta, Ga., June 28.—Forty-three out of sixty prospective jurors examined in a recent Atlanta murder trial were excused because of their opposition to the death penalty.

## Dempsey Claims He Will Battle Maxie Schmeling

San Francisco, June 28.—Jack Dempsey declared here today that he would return to the ring for a fight with Max Schmeling for the heavy-weight championship of the world.

"I have not signed yet for the match, but the promoters at Madison Square Garden want me to fight," said Dempsey. "The details will be fixed up shortly."

Dempsey arrived here today from Hollywood to fill a vaudeville engagement. He was accompanied by his wife, Estelle Taylor, film actress.

**Browns Increase Margin**  
As a result of their 7-to-2 win over the White Sox, the St. Louis Browns jumped to a game and a half ahead of the Yankees, but are all of 10 games behind the Athletics. Heinie Manush of the Browns got his 100th hit of the season, the first American League player to turn the trick.

Strong arm work by his team mates cost George Uhle, Detroit mound ace, a 5 to 4 defeat at the hands of Cleveland. Outfielder Johnson threw from center field clear into the grand stand in attempting to prevent a score and Catcher Shea hurled the ball almost as far in trying to nip a runner at second.

Errors also were partly responsible for the 5-to-2 defeat which Myles Thomas of Washington sustained at the hands of Jack Russell of the Red Sox.

Rain washed out other scheduled games, including the second game of the series between the Athletics and Yankees in Philadelphia.

## Columbus Entrant Wins State Title

Riverby Hills Country Club, Toledo, O., June 28.—Charles Nixon, known to friends as Charlie or Charley, today holds the coveted 1929 amateur southpaw golf championship of Ohio.

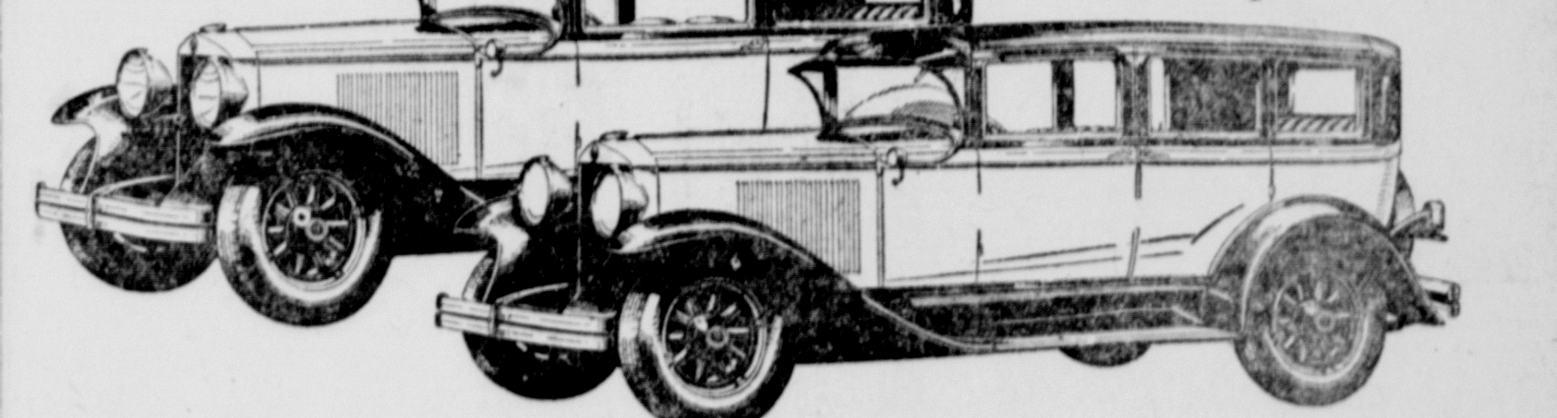

Stellar shots, even in the face of a stiff northwest wind, gave the Columbus man the victory over East Liverpool's entry, Art Wells, who survived the preliminary rounds of the tournament only to be mowed down by Nixon's drives and putts.

Wells, state champion last year, lost the match 6 and 5, in the final 36-hole round.

# You Can Buy Graham-Paige Quality at \$855 at factory

**M**ANY people are surprised to learn that Graham-Paige quality can be purchased for as little as \$855, at factory.

The 612, with prices beginning at this figure, is a large, powerful automobile.

When you lift the hood, you see a big engine—delivering 62 horsepower, with smooth operation assured by good balance. A seven-bearing crankshaft (2½ inches in diameter) is supported by a rigid motor block. Water jackets extend clear to the bottom of every cylinder, giving complete and uniform cooling for dependable performance and long life.

The internal expanding hydraulic brakes, protected from dirt and water, are larger than usual in a car at this price. Brake drums are machined absolutely true, insuring contact for the full surface of the brake shoes on all four wheels. This means less need for adjustments and relining, and greater security through more efficient braking.

The emergency brake is entirely separate, giving the protection—

which we believe essential—of two independent braking systems. All through the 612, you will find extra size, weight and strength. Everyone of its 3,125 pounds contributes directly to better performance and increased comfort and safety of its passengers.

The bodies are roomy and beautifully finished. Upholstery is genuine mohair, with a guarantee of long wear attached to every cushion.

Study the 612 and get a demonstration before you select your next car.
